Cash flow breakeven expected by year-end 2023

Conference call and webcast today at 8:30 a.m. ET

CHICAGO--(BUSINESS WIRE)--Mar. 10, 2022-- Xeris Biopharma Holdings, Inc. (Nasdaq: XERS), a biopharmaceutical company developing and commercializing unique therapies for patient populations in endocrinology, neurology, and gastroenterology, and Xeris Pharmaceuticals, Inc., today announced financial results for the fourth quarter and full-year 2021 and recent highlights.

"During 2021, we made significant progress toward achieving critical mass and becoming a fully integrated pharmaceutical company with the acquisition of Strongbridge, the continued growth of Gvoke and Keveyis, and the recent approval and launch of our third commercial product, Recorlev," said Paul R. Edick, Chairman and CEO of Xeris Biopharma. "2022 is all about execution and building long-term shareholder value. With three commercial products in large addressable markets and a strong cash position, we believe we can achieve 2022 net product revenues in the range of \$105 million to \$120 million and drive to cash flow breakeven by year-end 2023."

Fourth Quarter and Full-year 2021 Highlights and Recent Events

Marketed Products

- **Gvoke®:** Fourth quarter 2021 prescriptions topped 29,000 for the first time, growing more than 85% compared to the same period in 2020. Gvoke's market share of the retail TRx glucagon market grew to approximately 17% at year-end. In June, the FDA approved the extension of room temperature shelf-life of the Gvoke 1mg HypoPen and PFS from 24 months to 30 months. In August, the FDA approved the sNDA for the Gvoke Kit®, which will be available in March 2022.
- **Keveyis®:** Full-year pro forma 2021 net revenues for Keveyis were at the high end of the previously announced guidance of \$38-40 million.
- **Ogluo®:** In December, Xeris' commercialization partner, Tetris Pharma launched Ogluo® in the UK. Tetris plans to launch Ogluo in several European countries in 2022.
- **Recorlev®:** On December 30, 2021, The U.S. Food and Drug Administration (FDA) approved Recorlev for the treatment of endogenous hypercortisolemia in adult patients with Cushing's syndrome for whom surgery is not an option or has not been curative. In February 2022, Xeris launched Recorlev and is now exclusively available through a specialty pharmacy. The Company has established Xeris CareConnection™, a comprehensive support program, which includes \$0 co-pay for commercially insured patients, one-on-one support and education for patients, and reimbursement and access support.

Pipeline Programs

- **Levothyroxine:** Xeris anticipates having data from its Phase 1 single ascending dose study in the third quarter 2022.
- **Exercise-induced Hypoglycemia (EIH):** Xeris submitted an IND in February 2022 and recently received FDA clearance. The Company is actively planning a new phase 2 clinical program by the end of 2022 to further address the management of EIH in people with diabetes who use insulin.
- **XeriJect™ Technology Platform Collaborations:** Xeris has four ongoing evaluation projects with large pharmaceutical companies, which includes Merck, for the purpose of engineering ultra-high concentration, ready-to-use formulations.

Corporate Highlights

- On October 5, 2021, Xeris completed its acquisition of Strongbridge Biopharma plc.
- On January 2, 2022, Xeris entered into a Securities Purchase Agreement with Armistice Capital Master Fund Ltd. for \$30.0 million and the issuance of 10,238,908 shares of common stock and warrants to purchase 5,119,454 shares of common

stock at an exercise price of \$3.223 per share.

- On March 8, 2022, Xeris entered into a senior secured term loan agreement with Hayfin Capital Management LLP to provide the Company with \$150.0 million. On the closing date, Xeris drew down \$100.0 million to repay its existing debt facility of \$43.5 million with Oxford Finance LLC and Silicon Valley Bank and provide additional working capital to fund the Company's business plan. An additional \$50.0 million will be available during the 12-month period following the closing date.

Fourth Quarter and Full-year 2021 Financial Results

Net product revenues increased by \$14.3 million or 201% and \$29.1 million or 145% for the three and twelve months ended December 31, 2021, respectively, compared to December 31, 2020. The increases were due to an increased demand and the acquisition of a new product, Keveyis.

Cost of goods sold increased by \$1.5 million or 43% and \$4.0 million or 43% for the three and twelve months ended December 31, 2021, respectively, compared to December 31, 2020. The increases were due to increased sales, primarily offset by lower excess and obsolete.

Research and development expenses increased by \$5.0 million or 97% and \$4.2 million or 20% for the three- and twelve-months ended December 31, 2021, respectively, compared to December 31, 2020. Higher pharmaceutical process development and clinical service costs accounted for \$3.7 million and \$4.3 million of the increase for the three- and twelve-months ending December 31, 2021.

Selling, general and administrative expenses increased by \$36.2 million or 201% and \$52.0 million or 71% for the three- and twelve-months ending December 31, 2021, respectively, compared to December 31, 2020. The increases are primarily driven by costs associated with the Strongbridge acquisition of approximately \$18.3 million and \$24.4 million for the three- and twelve-months ending, respectively. Additionally, increases in sales force and commercial related expenses accounted for approximately \$15.7 million and \$16.8 million for the three- and twelve-months ending, respectively.

Net Loss for the fourth quarter ended December 31, 2021, was \$50.8 million, or \$0.42 per share, compared to a net loss of \$21.9 million, or \$0.41 per share, for the same period in 2020. For the full year ended December 31, 2021, the Company reported a net loss of \$122.7 million, or \$1.55 per share, compared to a net loss of \$91.1 million, or \$2.14 per share, for the same period in 2020.

Cash, cash equivalents, and short-term investments at December 31, 2021, was \$102.4 million compared to \$133.8 million at December 31, 2020. Total shares outstanding at February 28, 2022, was 135,523,511.

Financial Outlook

The Company is providing the following financial guidance:

- Net product revenue of \$105 million to \$120 million for full-year 2022
- Year-end 2022 cash, cash equivalents, and short-term investments in the range of \$90 million to \$110 million
- Cash flow breakeven by year-end 2023, which assumes performance is consistent with annual net product revenues guidance

Expectations for growth assume full access to health care provider facilities, as a continuation or escalation of access restrictions or lockdown orders resulting from the ongoing COVID-19 pandemic would adversely affect financial results.

Conference Call and Webcast Details

Xeris will host a conference call and webcast today, Thursday, March 10, 2022, at 8:30 a.m. Eastern Time. To pre-register for the conference call please use this link: <https://www.incommglobevents.com/registration/q4inc/9809/xeris-biopharma-fourth-quarter-2021-financial-results-conference-call-and-webcast/>. After registering, a confirmation email will be sent, including dial-in details and a unique code for entry. To join the webcast, please visit "Events" on investor relations page of the Company's website at www.xerispharma.com.

About Xeris

Xeris (Nasdaq: XERS) is a biopharmaceutical company developing and commercializing unique therapies for patient populations in endocrinology, neurology, and gastroenterology. Xeris has three commercially available products; Gvoke®, a ready-to-use liquid glucagon for the treatment of severe hypoglycemia, Keveyis®, the first and only FDA-approved therapy for primary periodic paralysis, and Recorlev® for the treatment of endogenous Cushing's syndrome. Xeris also has a robust pipeline of development programs to extend the current marketed products into important new indications and uses and bring new products forward using its proprietary formulation technology platforms, XeriSol™ and XeriJect™, supporting long-term product development and commercial success.

Xeris Biopharma Holdings is headquartered in Chicago, IL. For more information, visit www.xerispharma.com, or follow us on [Twitter](#), [LinkedIn](#), or [Instagram](#).

Forward-Looking Statements

Any statements in this press release about future expectations, plans and prospects for Xeris Biopharma Holdings, Inc. including statements regarding the financial outlook for the full-year 2022, including projections regarding year-end 2022 cash estimates, the Company's expectations regarding its cash flow breakeven projection, estimates and projections about the potential synergies in fiscal year 2022 resulting from the Strongbridge Biopharma acquisition, the availability of up to \$50 million of additional funding under our credit agreement with Hayfin, the market and therapeutic potential of its products and product candidates, the expected launch by Tetris Pharma of Ogluo in several European countries in 2022, the expected availability of the Gvoke Kit® in March 2022, expectations regarding clinical data or results from planned clinical trials, including from the Phase 1 single ascending dose study in the third quarter 2022, the timing of clinical trials, including a new phase 2 clinical program to further address the management of EIH in people with diabetes who use insulin expected by the end of 2022, estimates and expectations regarding potential collaborations, including

collaborations on the XeriJect™ Technology Platform, the timing or likelihood of regulatory approval and commercialization of its product candidates, the timing or likelihood of expansion into additional markets, the timing or likelihood of identifying potential development and commercialization partnerships, the potential utility of its formulation platforms and other statements containing the words “will,” “would,” “continue,” and similar expressions, constitute forward-looking statements within the meaning of The Private Securities Litigation Reform Act of 1995. These forward-looking statements are subject to risks and uncertainties that may cause actual results to differ materially from those indicated in the forward-looking statements. Such risks and uncertainties include, but are not limited to, reliance on third-party suppliers for Gvoke®, Ogluo®, Keveyis and Recorlev, the regulatory approval of its product candidates, its ability to market and sell its products, failure to realize the expected benefits of the acquisition of Strongbridge Biopharma, the impact of the COVID-19 pandemic on Xeris, including impact on access to health care provider facilities, as a continuation or escalation of access restrictions or lockdown orders, changes in global, political, economic, business, competitive, market and regulatory forces, future exchange and interest rates, changes in tax laws, regulations, rates and policies, future business acquisitions or disposals and competitive developments and the other risks described in our Quarterly Report on Form 10-Q and other reports we file from time to time with the SEC. These forward-looking statements are based on numerous assumptions and assessments made in light of Xeris’ experience and perception of historical trends, current conditions, business strategies, operating environment, future developments, and other factors it believes appropriate. By their nature, forward-looking statements involve known and unknown risks and uncertainties because they relate to events and depend on circumstances that will occur in the future. The factors described in the context of such forward-looking statements in this communication could cause Xeris’ plans with respect to Strongbridge, Xeris’ plans with respect to its products and product candidates, Xeris’ actual results, performance or achievements, industry results and developments to differ materially from those expressed in or implied by such forward-looking statements. Although it is believed that the expectations reflected in such forward-looking statements are reasonable, no assurance can be given that such expectations will prove to have been correct and persons reading this communication are therefore cautioned not to place undue reliance on these forward-looking statements which speak only as at the date of this communication. Additional information about economic, competitive, governmental, technological, and other factors that may affect Xeris is set forth in Item 1A, “Risk Factors,” in Xeris’ most recently filed Quarterly Report on Form 10-Q filed with the SEC, the contents of which are not incorporated by reference into, nor do they form part of, this communication. Any forward-looking statements in this communication are based upon information available to Xeris, as of the date of this communication and, while believed to be true when made, may ultimately prove to be incorrect. Subject to any obligations under applicable law, Xeris does not undertake any obligation to update any forward-looking statement whether as a result of new information, future developments or otherwise, or to conform any forward-looking statement to actual results, future events, or to changes in expectations. All subsequent written and oral forward-looking statements attributable to Xeris or any person acting on behalf of any of them are expressly qualified in their entirety by this paragraph.
